Work Experience

JUNIOR ANGULAR DEVELOPER

Zepto System | 06/2022 - 07/2023

- Designed and developed efficient user interaction screens using HTML, CSS3, Bootstrap, JavaScript, Angular 6, and Strapi..
- Collaborated with the backend team to implement RESTful APIs, reducing API response time by 30%.
- Implemented an Angular Router for seamless navigation, reducing user task completion time by 20%
- Integrated external APIs and web services for real-time data updates, increasing data accuracy by 15%.
- Managed version control with Git and resolved code conflicts efficiently through GitHub collaboration.

JUNIOR ANGULAR DEVELOPER

IT Pixelz | 07/2023 - Present

- **Data Visualization:** Utilized Angular to create interactive and visually appealing data visualizations for CRM data
- **Contact Management:** Implemented Angular components for robust contact management features, enabling seamless interaction with client data..
- **Campaigns:** Designed tools for targeted marketing campaigns.
- **Appointments:** Leveraged Angular forms and services to create a user-friendly appointment scheduling system, optimizing time management.
- **Reporting:** Utilized Angular to develop dynamic reporting components, providing valuable insights into CRM data.

AI Image Generation Platform

- **Real-Time Image Generation:** Engineered a responsive Angular-based frontend for instant image creation providing users with diverse and high-quality images in real-time.
- **AI Models Integration:** Integrated ChatGPT APIs and DALL-E to generate personalized images, enhancing the interactive user experience.
- **User Interface Design:** Designed an intuitive UI for seamless interaction with AI image generation features, catering to users of all skill levels.
- **Collaborative Development:** Collaborated with cross-functional teams to seamlessly integrate frontend components with backend systems and AI models, ensuring cohesive development.
